EEN PROJECT UIT ONZE LIVESHOW - THE BRAND NEW LAUNCH - 29 JUNI 2026

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant card featuring a gold-embossed lady silhouette enhanced with beautiful laminated flower details. Using a two-part lamination system, layer different coloured embossing powders to achieve a stunning watercolour effect on the flower petals and facial features. The finished card combines sophisticated black and gold tones with delicate pink and green floral accents.

STAP 5 VAN 7

Re-ink the stamped image on the card with the sticky embossing pad. Apply the lighter pink embossing powder from the WOW Powder Trio over the sticky area to create the second lamination layer.

STAP 6 VAN 7

Heat set the lighter embossing powder using your heat tool, working quickly to preserve the gold layer beneath. Move the heat tool evenly over the powder until it melts and sets.

Once the embossing powder has cooled completely, gently brush away any remaining anti-static powder from the black card to reveal the finished white embossed flower design.

TIPS UIT DE SHOW

- Line up the lamination stamps using the lips as your guide - this ensures the flower petals align correctly.
- Work very quickly when heat setting over previously embossed layers to avoid melting the gold underneath.
- Lamination is not perfect and will have a watercolour finish, so slight overlapping of colours is part of the design.
