

White Ink Restoration on Coloured Embossed Card

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 23 OKTOBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning embossed card with restored white ink detail on a textured background. This technique uses embossing folders to create raised patterns, then applies white ink to highlight the embossed areas against copper, bronze and metallic tones. The result is an elegant card with beautiful dimensional contrast, perfect for special occasions.

STAP VOOR STAP

1

STAP 1 VAN 5

Start with embossed cardstock that has already been coloured with brown and copper tones and textured with honeycomb patterns. The white embossed design should show decorative swirls and flourishes against the coloured background.

[BEKIJK DEZE STAP - 36:00](#)

2

STAP 2 VAN 5

Load your white ink pad with colour by dabbing it onto the embossed card. Pick up the bronze, copper and metallic tones from the background to add depth and detail to your white ink.

[BEKIJK DEZE STAP - 36:15](#)

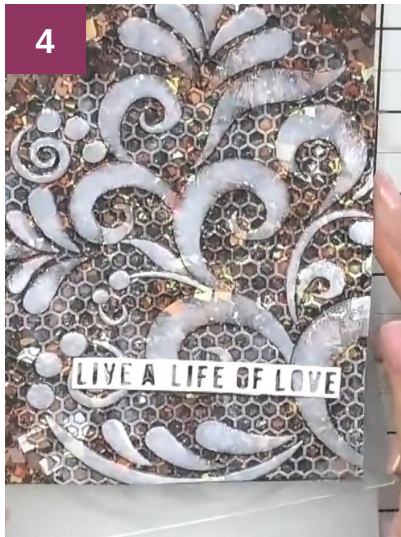

3

STAP 3 VAN 5

Gently press the white ink pad onto the embossed design, focusing on the raised areas to highlight the pattern. Work carefully to ensure even coverage on all the raised surfaces.

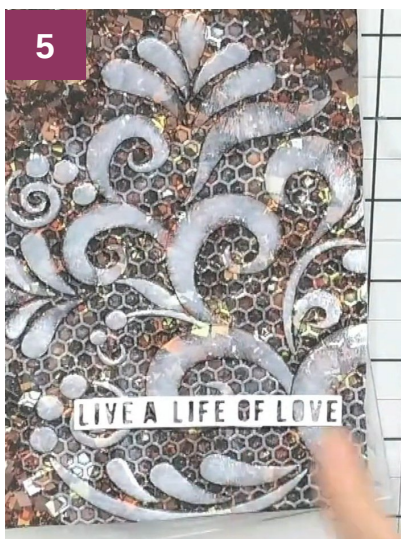

[BEKIJK DEZE STAP - 36:30](#)

STAP 4 VAN 5

Use the corner of a white ink pad to work the ink into the fine details and crevices of the embossed design. This helps restore definition to intricate areas of the pattern.

[BEKIJK DEZE STAP - 36:45](#)

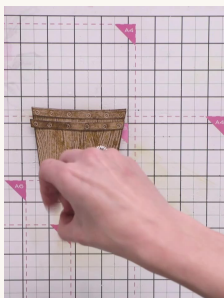

STAP 5 VAN 5

Step back to admire your finished card. The white ink has restored the dimensional detail of the embossed design, making the flourishes and patterns stand out beautifully against the coloured background.

TIPS UIT DE SHOW

- White ink is particularly effective for bringing back detail on darker or heavily coloured embossed pieces.
