

Holografisch papier embossen met witte inkt

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 23 OKTOBER 2023

OVER DIT PROJECT

Create a stunning card featuring a charming gnome design on shimmering holographic paper. Using 3D embossing folders, you'll create raised texture that catches the light beautifully, then enhance the embossed details with white ink for a delicate, elegant finish. The rainbow hues of the holographic background combined with the crisp white highlights make this perfect for any special occasion.
