Snow Drift Word Card with Window and Mounted Scene

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 16 OKTOBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning winter scene card featuring a traditional snowy landscape with a window frame overlay and a decorative 'Greetings' sentiment. The design combines a pre-printed vintage snow scene with bare trees and sledging figures, mounted within a black window frame to create depth and dimension. This elegant card uses die-cutting and layering techniques to achieve a sophisticated festive look with muted winter tones.

TIPS UIT DE SHOW

- You don't need to colour the shadow perfectly—just add random touches of grey to create a natural effect.
- The 300 GSM weight of the mounted cards means you don't need additional support when gluing.
- You can use the window die on its side as well as in portrait orientation for different effects.
