EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 16 OKTOBER 2023

OVER DIT PROJECT

Create a charming slimline card featuring a rustic window frame with a delightful scene beyond. Using innovative window dies with shadow-drop pieces, you'll build realistic depth and perspective, showcasing a bicycle with flowers against a soft background. The coloured shadow elements create a three-dimensional effect that brings the window scene to life.

STAP 6 VAN 7

Mount the completed window frame onto your card base, positioning it so the key elements of the scene (such as the bicycle and flowers) show through the window panes.

Add embellishments such as sparkle or texture to enhance the finished card. Consider adding details to the window frame or surrounding areas to complete your design.

TIPS UIT DE SHOW

- The shadow pieces don't need to be perfectly coloured—random shading creates a more realistic effect.
- You can use alcohol markers, pencils, or ink pads to colour the shadows, whatever you have in your stash.
- The embossed detail on the window frame adds texture and makes the design more realistic.
