3D-kaart met gelaagde vellum harten

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB CHAPTER 3 - 29 SEPTEMBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant card featuring layered vellum hearts that fold and nest together to form a beautiful 3D effect. The delicate hearts are decorated with pink and grey patterned papers, creating a sophisticated butterfly-like design that pops up when the card is opened. This project uses simple stamping, die-cutting and layering techniques to achieve a stunning dimensional result.

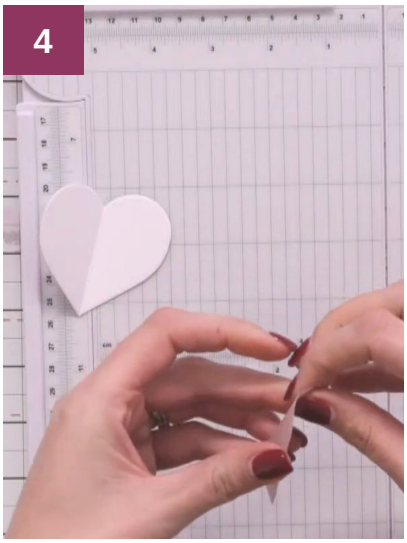
STAP 3 VAN 8

Score the large white heart down the centre using a scoring tool and ruler to create a fold line.

BEKIJK DEZE STAP - 6:30



STAP 4 VAN 8

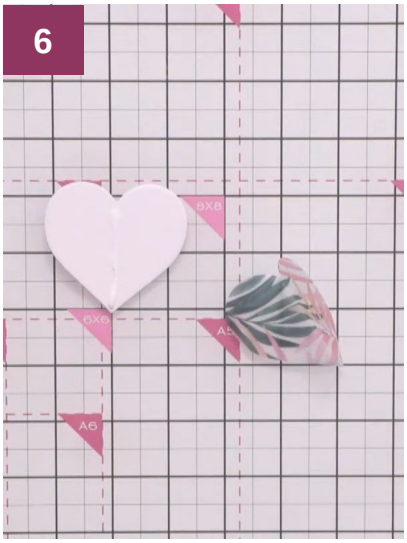
Fold the vellum heart pieces in half yourself by hand to avoid cutting through the delicate material with the die-cutting machine.

BEKIJK DEZE STAP - 7:00

STAP 5 VAN 8

Apply glue down the centre of the white card heart. Allow the glue to become tacky before adhering the pieces together.

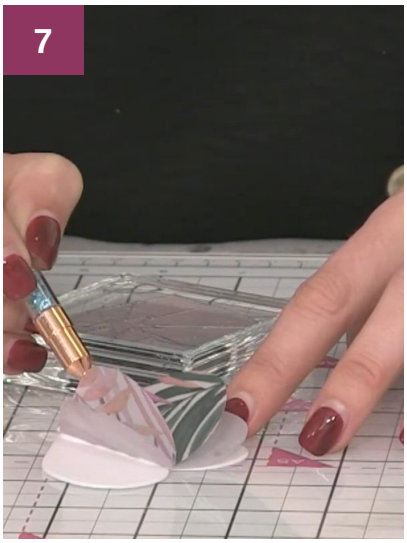
BEKIJK DEZE STAP - 9:00



STAP 6 VAN 8

Nest the vellum hat pieces inside each other and glue them to the centre of the white heart. Use a tacky glue for secure adhesion.

BEKIJK DEZE STAP - 9:15



STAP 7 VAN 8

Use an acrylic block to gently flatten the layered vellum pieces whilst maintaining the 3D effect. Hold the block in place over the layers to press them down slightly.

BEKIJK DEZE STAP - 12:00

STAP 8 VAN 8

Repeat the process with the medium and small heart shapes, layering vellum pieces with different patterns. Vary the arrangement of the vellum pieces to create visual interest across the different sized hearts.

TIPS UIT DE SHOW

- Let vellum glue become tacky before sticking to prevent it from absorbing all the adhesive.
- The 3D hearts will flatten completely for posting in an envelope but pop back up when the card is opened.
- You can tie the vellum pieces together with cotton for a different look instead of using glue.
