HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful heart-shaped card with an elegant layered design. This romantic card features multiple patterned papers in soft pinks and wood-effect textures, with decorative heart die-cuts arranged along the edges to create a dimensional border effect. The design combines simple layering techniques with careful placement of embellishments for a stunning finished piece.

TIPS UIT DE SHOW

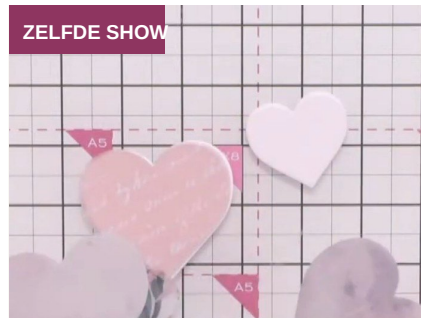

- Mix and match different sized hearts to create visual interest along the card edges.
- You can use just the outline hearts if you prefer a simpler design without full layering.
- This technique creates a unique shaped card without needing a special die-cutting machine.
