

Kiss Stencil Technique Splat and Heart Card

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB CHAPTER 3 - 27 SEPTEMBER 2023

OVER DIT PROJECT

Create a striking card using the kiss stencil technique, where two stencils are layered together to create a patterned splat with a heart formation inside. The design features purple and pink stars, hearts and blue splats blended together on white cardstock, mounted on a kraft card base. This technique produces a beautiful multi-toned effect perfect for celebration cards.

STAP VOOR STAP

1

STAP 1 VAN 12

Position the splat formation stencil on your white cardstock and line it up where you want the design to sit. Hold the stencil in place with your hand to keep it steady.

2

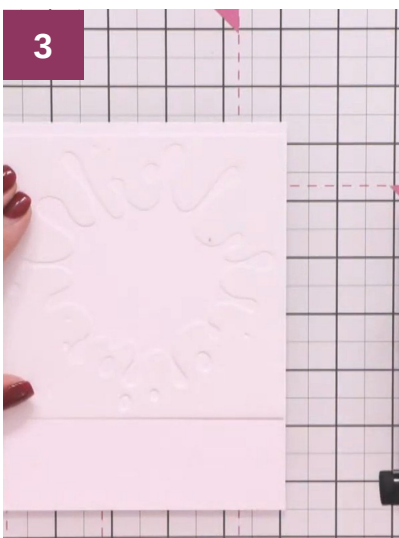

STAP 2 VAN 12

Apply ocean ink through the stencil using a stencil brush, working the colour through the openings and blending it well onto the card.

3

STAP 3 VAN 12

Apply Tiffany ink around the edges of the splat shape using a blending tool. Blend the colours together to create depth and dimension within the design.

4

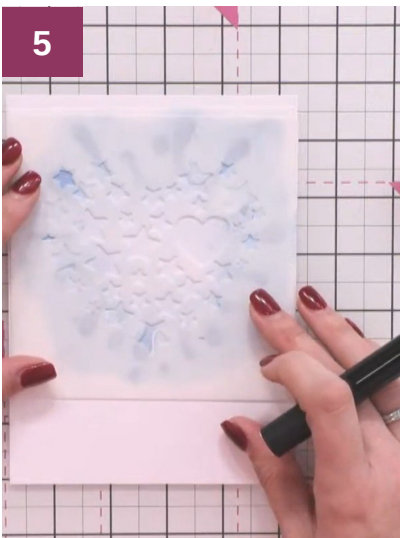

STAP 4 VAN 12

Position the heart stencil on top of the splat stencil, aligning it to capture the most interesting star formations within the heart outline.

5

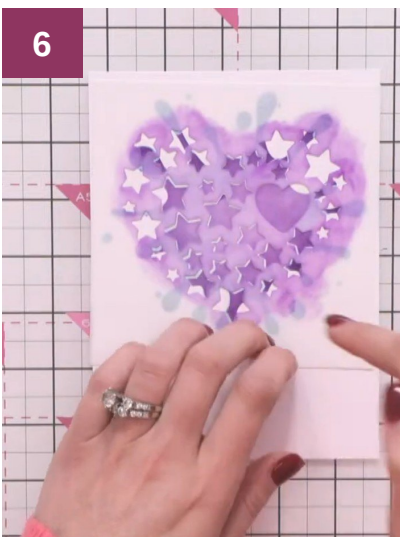

STAP 5 VAN 12

Apply purple ink through both stencils layered together, pressing firmly to ensure the colour reaches through the double layers, especially at the edges.

6

STAP 6 VAN 12

Remove the heart stencil from the centre. Reposition just the splat stencil over the card and fill in the remaining white areas with Fandango pink ink to create a two-tone ombre effect.

7

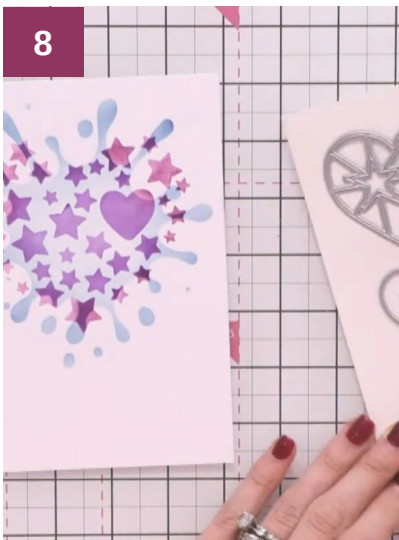

STAP 7 VAN 12

Die-cut the star and heart shapes from white cardstock using the dies included in the kit. You'll create a variety of star sizes in pink and purple tones, along with a heart shape for the centre of your design.

8

STAP 8 VAN 12

Layer the die-cut heart pieces together, building up the star and heart elements to create dimension. Position the hearts and decorative elements on your card to add depth and interest.

9

STAP 9 VAN 12

Score four horizontal lines across the white card base using a scoring tool and guillotine to add visual interest to the design.

10

STAP 10 VAN 12

Cut the word 'Faith' from white cardstock using your die-cutting machine. Layer three cut pieces together with glue to create a raised dimensional embellishment.

[BEKIJK DEZE STAP - 34:30](#)

11

STAP 11 VAN 12

Adhere the layered stencilled panel to the scored card base, positioning it offset to one side rather than centred.

12

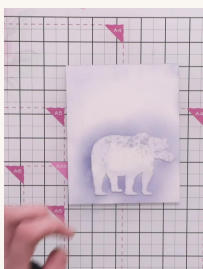

STAP 12 VAN 12

Attach the layered 'Faith' sentiment to the card front, positioning it so it hangs off the edge of the heart element at an angle.

TIPS UIT DE SHOW

- If the result looks too dark or grungy when working with two stencils, ensure you're working in good lighting with pink, yellow or orange tones.
- You can stop after the first two-tone heart step if you prefer, as the effect already looks striking without additional layering.
- Tweezers are helpful for positioning small die-cut elements and sentiments precisely on your card.
