

Stag in Forest Stencilled Christmas Card

EEN PROJECT UIT ONZE LIVESHOW - STAMPS BY ME - 27 SEPTEMBER 2023

OVER DIT PROJECT

Create a beautiful layered Christmas card featuring a majestic stag silhouette set against a winter forest scene. This elegant design combines stencilling techniques with stamped sentiment text, layered over decorative patterned paper with birds and trees, all mounted on a rich teal card blank. The finished piece uses mixed media methods to create depth and texture, with the stag as the striking focal point of this festive greeting card.

TIPS UIT DE SHOW

- Use the inner and outer stencil pieces together to give yourself more scope and flexibility in your design.
- Stamp sentiment text as texture both inside and outside your main image to create depth and mixed media interest.
- Don't aim for perfect placement; a suggestion of trees and texture works better than a completely symmetrical design.
