# Heat Embossed Bat Silhouette Card with Blended Moon

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 13 SEPTEMBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a striking Halloween card featuring a heat-embossed bat silhouette stamped in forest green with a beautifully blended multicoloured moon as the focal point. This atmospheric design combines heat embossing with ink blending techniques to create depth and texture, with delicate branch details framing a warm yellow and orange moon against a subtle background. The layered stamping and stencilling create a moody, seasonal scene perfect for autumn greetings.

STAP 4 VAN 8

**Heat the embossed image with a heat gun to melt the embossing powder and set the design.** Move the heat gun continuously over the surface until the powder transforms into a raised, shimmery finish.

STAP 5 VAN 8

**Position a circular stencil in the centre of your stamped card.** Blend yellow ink across the stencil opening to create a moon shape, then blend green ink around the edges to add depth.

BEKIJK DEZE STAP - 5:30

STAP 6 VAN 8

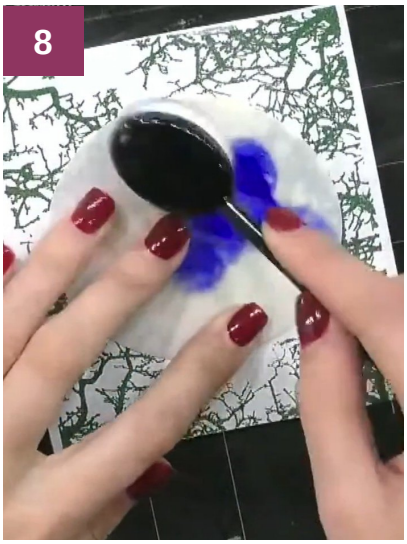
**Add orange ink to the blending brush, tapping off excess ink first.** Blend the orange into the yellow area of the moon, building up the colour gradually.

BEKIJK DEZE STAP - 6:00

STAP 7 VAN 8

**Add a touch of pink or red ink to the upper right area to create a gradient effect.** Work from the stencil edge onto the paper, blending gently outwards to create a soft transition.

BEKIJK DEZE STAP - 7:15



STAP 8 VAN 8

**Using a blending brush, drag blue ink from the stencil slowly across the card to create a sky effect, carefully covering the moon area.** Work gently to avoid creating harsh lines.

BEKIJK DEZE STAP - 8:00

## TIPS UIT DE SHOW

- When using a stencil, tap ink off onto the stencil first rather than applying directly to the paper to avoid dark, harsh lines.
- Embossed images resist ink, so you can layer colour over them without smudging.
- Don't worry about perfect coverage on textured card stock; the embossing will still show through.
