

Sunset Over Water Card with Blended Horizon

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 13 SEPTEMBER 2023

OVER DIT PROJECT

Create a stunning tropical sunset card featuring a beautifully blended horizon in warm yellows, oranges, and pinks transitioning to cool blues and purples. This serene landscape includes silhouetted reeds and a bird perched on a branch against a glowing sun. The main technique involves colour blending to achieve a smooth gradient effect across the sky and water.

STAP VOOR STAP

1

STAP 1 VAN 8

Position your circular stencil on the gradient card to mask the area where the sun will be. Place it in the upper portion of the card, slightly off-centre if desired, to create the horizon line for your sunset scene.

2

STAP 2 VAN 8

Apply yellow ink to the stencil using a blending brush. Tap off excess ink first to control the amount of colour, then blend onto the card where the sun meets the horizon.

3

STAP 3 VAN 8

Blend orange ink into the yellow area using a blending tool, working from the stencil edge outwards onto the paper to create a smooth gradient effect from yellow to orange.

STAP 4 VAN 8

Add pink or red ink to the centre of the sunset area to create depth and warmth. Blend the ink gently into the existing orange and yellow tones using a blending tool.

STAP 5 VAN 8

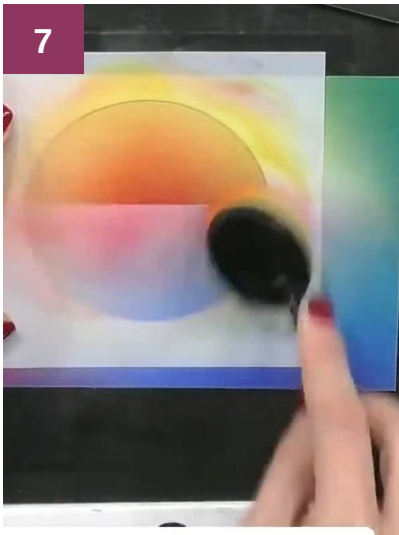

Remove the stencil and use a clean, damp brush to soften and blend the colour transitions on your sunset background, creating smooth gradients between the orange, pink and blue areas.

STAP 6 VAN 8

Use an ink blending tool to apply orange ink along a horizontal line across the centre of the card to create a horizon line separating the sky from the water.

[BEKIJK DEZE STAP - 42:30](#)

STAP 7 VAN 8

Use a blending brush or sponge to stipple white ink across the lower half of the rainbow gradient panel to create water texture, suggesting ripples and reflections.

STAP 8 VAN 8

Optional: Use a stamp to add a bird or other design element to complete your sunset scene. Position the stamp where desired and press firmly to transfer the image onto your card.

TIPS UIT DE SHOW

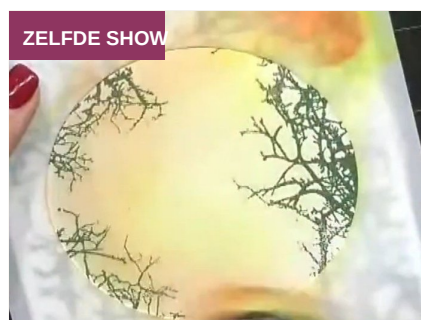

- Start with a major idea, such as a sunset, but be prepared to adapt as you work; the final card often differs from your initial plan.
- Keep it simple; sometimes a little colour and water texture is all you need for an effective landscape.
