

Halloween Reflection Card with Pattern Paper Background

EEN PROJECT UIT ONZE LIVESHOW - MONDAY PODCAST - 11 SEPTEMBER 2023

OVER DIT PROJECT

Create a stunning Halloween card featuring a magical twilight scene with vibrant pink, purple, and orange galaxy-effect skies. Using pre-printed pattern paper as your background, you'll layer stamped reflective trees, silhouetted children trick-or-treating, and a 'Trick or Treat' sentiment to build an enchanting autumnal scene. This project demonstrates how patterned papers can do the heavy lifting whilst you focus on creative stamping and layering techniques.

STAP VOOR STAP

1

STAP 1 VAN 6

Select a pattern paper from the Happy Haunting collection that you like. Choose one without trees so you can add your own stamped elements later.

2

STAP 2 VAN 6

Position your chosen pattern paper on the cutting mat. The paper should be ready for stamping, with the colourful galaxy design facing up.

3

STAP 3 VAN 6

Stamp the silhouette children figures at the base of the card, positioning them to create a reflection effect that mirrors the tree placement above. Use black ink to stamp the figures clearly on the lower portion of the galaxy background.

STAP 4 VAN 6

Darken the top portion of the tree reflection by re-stamping over the existing image to add depth and contrast. Layer additional ink to create a more dramatic effect in the upper areas of the tree.

5

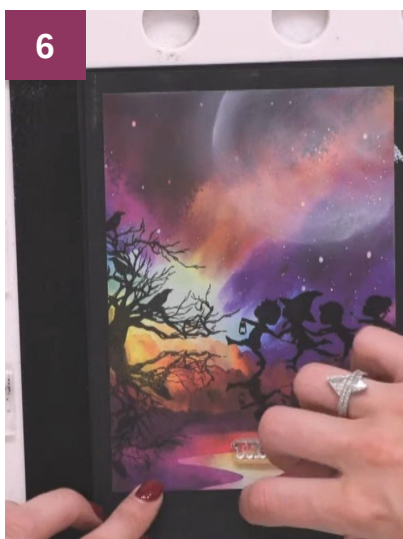

STAP 5 VAN 6

Position and stamp a sentiment such as 'Trick or Treat' below the reflection children silhouettes on your card front.

6

STAP 6 VAN 6

Use a white gel pen to add highlights to the tops of the children's heads and hats, creating a light reflection effect on the stamped silhouettes.

TIPS UIT DE SHOW

- The pattern papers provide instant beautiful backgrounds, so you can focus on creative stamping without worrying about creating your own background.
- You can use different ink colours for the top and reflection portions of your stamps to create varied effects.
- Adding white gel pen highlights to the tops of elements creates the appearance of light reflecting on your scene.
