STAP VOOR STAP

STAP 1 VAN 8

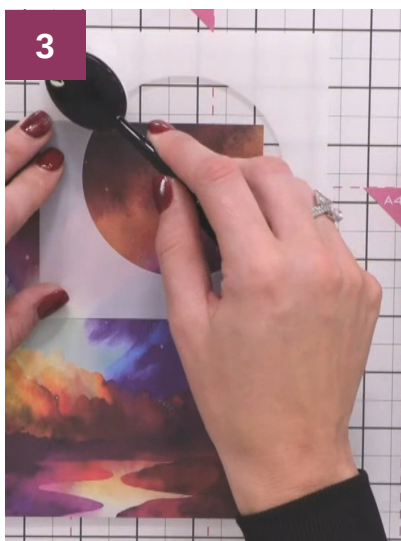

Position the moon stencil on your galaxy card background near the top of the card. The circular moon shape should be placed in the upper portion, above the landscape scene.

STAP 2 VAN 8

Tap white ink off your brush onto the stencil to avoid over-saturating. Apply the ink very lightly over the moon stencil using a flat-headed brush.

STAP 3 VAN 8

Use smooth, gentle brush strokes to blend the white ink evenly across the stencil opening. Work lightly to create a soft, even coverage over the moon shape.

[BEKIJK DEZE STAP - 20:30](#)

STAP 4 VAN 8

Carefully lift the stencil straight up to reveal your moon shape. The moon should have a soft, blended appearance with pink and orange tones against the colourful galactic background.

[BEKIJK DEZE STAP - 21:00](#)

STAP 5 VAN 8

Position the circular stencil directly over your stamped moon image, aligning it carefully to match the moon's position on the galactic background.

STAP 6 VAN 8

Remove most of the white ink from your brush by dabbing it on scrap paper. Lightly apply a soft layer of white ink around the edges of the moon to create a subtle glow effect.

[BEKIJK DEZE STAP - 21:30](#)

STAP 7 VAN 8

If the glow appears too harsh, blend it gently with a clean, dry brush to soften the transition and create a more subtle effect.
