Aquarelkaart met klaprozen en inkt-bleed-effect

EEN PROJECT UIT ONZE LIVESHOW - HSN ITEM 839554 - 17 AUGUSTUS 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning watercolour-effect card featuring vibrant orange and yellow poppy blooms with green foliage on a textured white background. This beautiful floral design is achieved through a clever ink bleed technique using multi-coloured stamping and water spray, producing artistic results that look professionally hand-painted. The finished card is mounted on a cream base with a sentiment banner, perfect for any occasion.

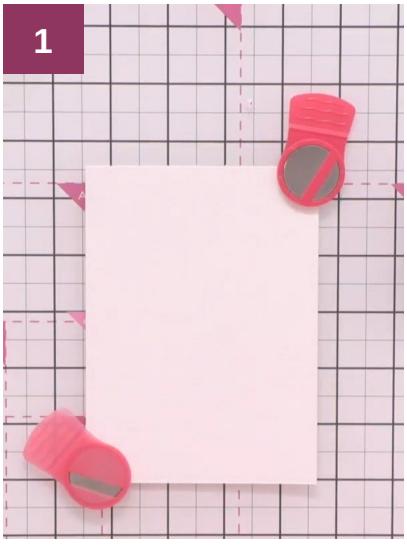
STAP VOOR STAP



STAP 1 VAN 12

Place a piece of white watercolour cardstock on your cutting mat. Secure it in position using magnets at the top and bottom corners to prevent it from moving whilst you work.

STAP 2 VAN 12

Select three or more Distress Ink pads in complementary colours such as pink, coral/orange, and blue-green for your watercolour effect.

STAP 3 VAN 12

Ink up the centre of the poppy stamp with your first Distress Ink colour. Then spot additional colours around the flower design in random areas to create variation.

STAP 4 VAN 12

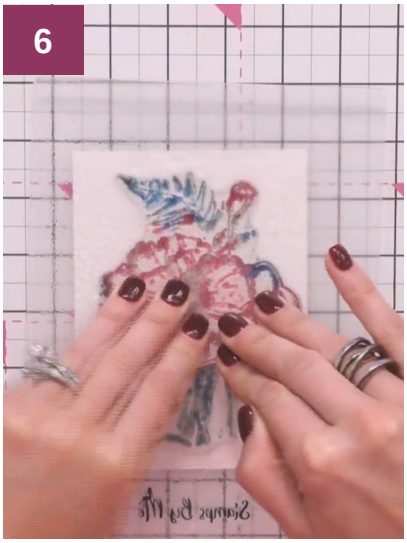
Continue building up the colour by adding pink ink to brighten the design. Layer the colours whilst the ink is still wet to allow them to blend together naturally.

BEKIJK DEZE STAP - 3:00

STAP 5 VAN 12

Spray the stamped image lightly with water from a spray bottle to activate the ink and create a watercolour bleed effect on the card.

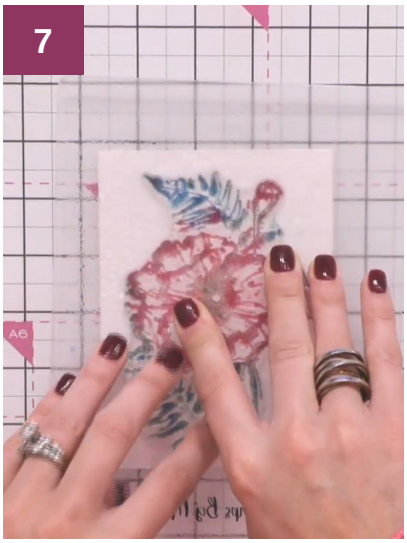
BEKIJK DEZE STAP - 3:45



STAP 6 VAN 12

Press the stamp firmly onto the watercolour cardstock and hold it in place for a few seconds to allow the ink to transfer properly. Ensure the stamp remains still to avoid smudging the image.

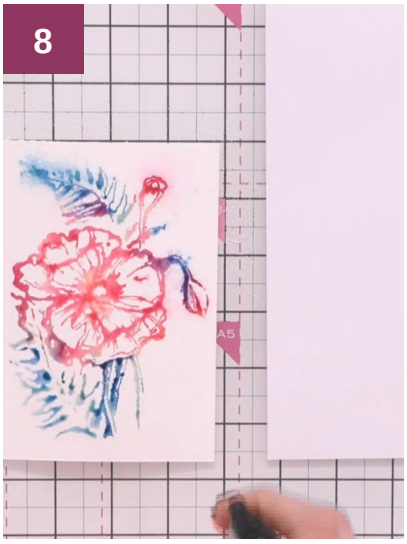
BEKIJK DEZE STAP - 4:00



STAP 7 VAN 12

Carefully lift the stamp away from the card to reveal the stamped poppy image with its beautiful watercolour effect.

BEKIJK DEZE STAP - 4:15



STAP 8 VAN 12

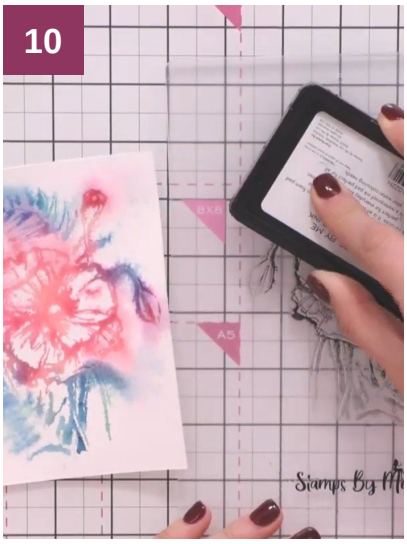
Spray additional water directly onto the stamped image in small, forgiving bursts. This creates extended colour bleeds and softens the edges of the floral design.

BEKIJK DEZE STAP - 5:15

STAP 9 VAN 12

Use a heat tool to dry the stamped and watercoloured floral image completely. Move the heat tool over the entire surface to set the watercolour effect and ensure the card is fully dry before proceeding.

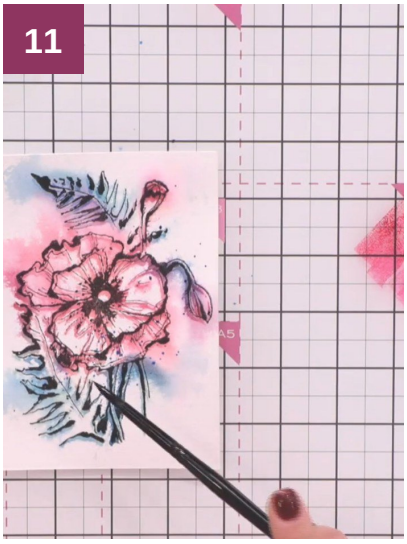
BEKIJK DEZE STAP - 5:45



STAP 10 VAN 12

Re-ink the stamp with black ink. Carefully stamp over the dried watercolour image to add detail and definition to the poppy design.

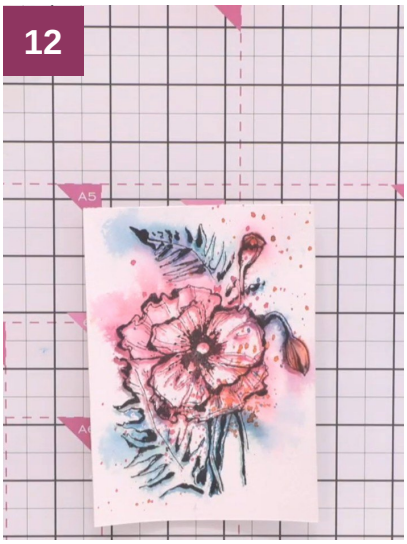
BEKIJK DEZE STAP - 7:00



STAP 11 VAN 12

Mix coloured inks with water on a palette. Flick a paintbrush loaded with the diluted ink over the card to create decorative splats and artistic accents around the stamped floral image.

BEKIJK DEZE STAP - 8:30



STAP 12 VAN 12

Once the watercolour artwork is completely dry, mount it onto a contrasting card base. Use black or white cardstock to make the floral design stand out.

BEKIJK DEZE STAP - 10:30

TIPS UIT DE SHOW

- The stamps are forgiving in design and do not require precise placement, making them ideal for creating an artistic look.
- You can get a second generation stamp from the same inked stamp by stamping onto spare cardstock before cleaning.
- The height at which you hold your brush determines splat size—hold it higher for larger splats and lower for smaller ones.
