STAP 2 VAN 9

Position the circular moon stencil aperture near the top of your galaxy background paper. Hold it in place and use a blending brush to add a pink halo around the edge of the circle, blending it outwards.

STAP 3 VAN 9

Using a blending brush with white ink, apply colour around the moon aperture to create a subtle halo effect. Concentrate the ink more in the centre whilst staying away from the very centre of the aperture.

STAP 4 VAN 9

Position the exterior stencil over the moon area. Using the ink blending tool, apply white ink to the centre of the circle and blend outwards to create a glowing effect.

5

STAP 5 VAN 9

Using your finger or a blending tool, gently blend the white ink outwards from the moon area to soften the edges and create a gentle glow effect on the galaxy background paper.

6

STAP 6 VAN 9

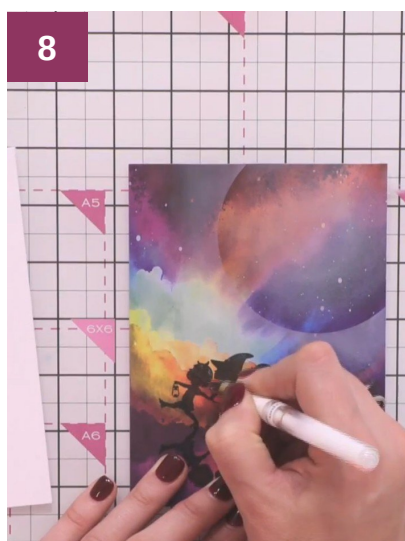

Stamp the reflection figures in black ink near the base of the galaxy card where the water or ground area is shown. Position the stamped images to create a reflection effect at the bottom of the scene.

STAP 7 VAN 9

Using a white gel pen, add highlights to the tops of the silhouette figures and any raised elements to create the effect of moonlight reflection.

[BEKIJK DEZE STAP - 16:30](#)

STAP 8 VAN 9

Mount the decorated panel with the galaxy background and silhouette figures onto a white card base. Use adhesive to secure it in place, ensuring it is centred on the card front.

STAP 9 VAN 9

Add a sentiment to complete your card. Attach a Halloween greeting such as 'Witching you a happy Halloween' to the top of the card using adhesive.

TIPS UIT DE SHOW

- The paper is uncoated, which means you can emboss, heat emboss, stamp, paint or gesso it for additional creative options.
- White gel pen dries back slightly lighter than it appears when applied, so don't worry if it looks harsh initially.
- You can repeat the figures design or position them off to the edge for varied compositions.
