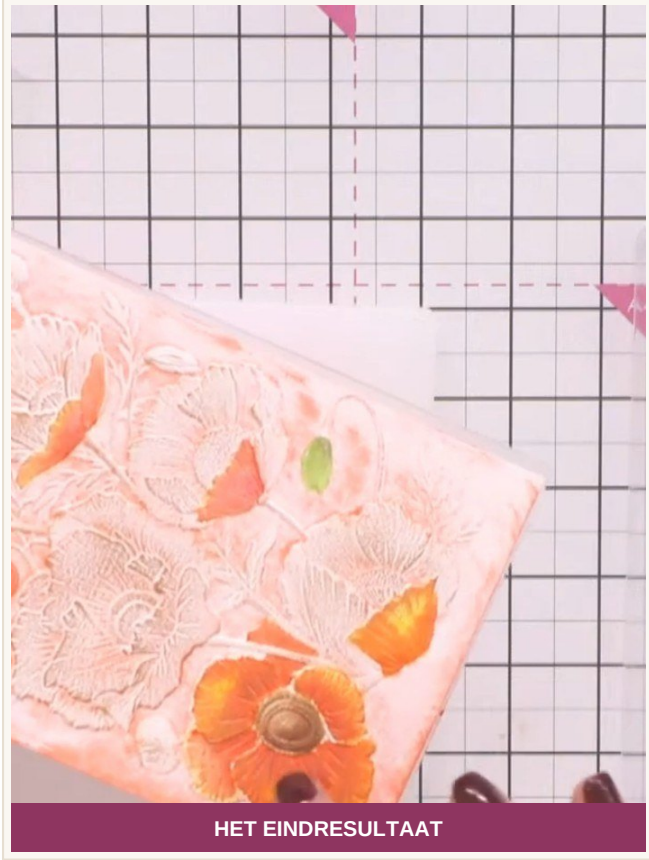
Embossingfolder-techniek met ingeïnkte randen

EEN PROJECT UIT ONZE LIVESHOW - MONDAY PODCAST - 14 AUGUSTUS 2023



HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful embossed card panel featuring delicate floral designs in soft coral and peach tones. This technique involves inking the edges of an embossing folder before re-embossing to add bold colour around the raised design whilst preserving the dimensional detail. The result is an elegant, textured piece perfect for card making and mixed media projects.

STAP 6 VAN 6

Once dry, add further layers of colour by repeating the inking and embossing process with different ink pad colours. Build up the design with additional shades of orange and peach ink to create depth and dimension.

TIPS UIT DE SHOW

- Use a light spray of water rather than soaking the design to avoid over-saturating the cardstock.
- If you have applied gilding wax to the design, the oil-based wax will resist the ink, creating an interesting layered effect.
