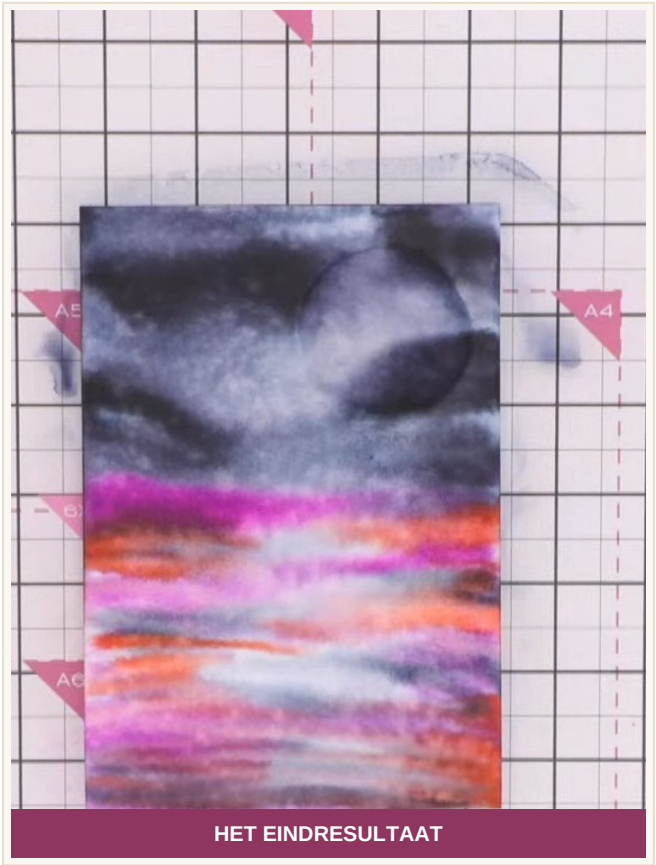
Aurora Borealis Night Sky with Watercolour Brush Pens

EEN PROJECT UIT ONZE LIVESHOW - MONDAY SALE - 14 AUGUSTUS 2023



HET EINDRESULTAAT

OVER DIT PROJECT

Create a dramatic aurora borealis night sky using watercolour brush pens in steely blue, vibrant fuchsia pink and orange. The colours are layered wet-on-wet to achieve a moody, atmospheric effect, with a lifted moon created by removing colour with tissue before it dries. This striking background technique is perfect for adding depth and drama to your papercraft projects.

STAP 2 VAN 10

Using a clean water brush, wet your watercolour card thoroughly from top to bottom with clean water.

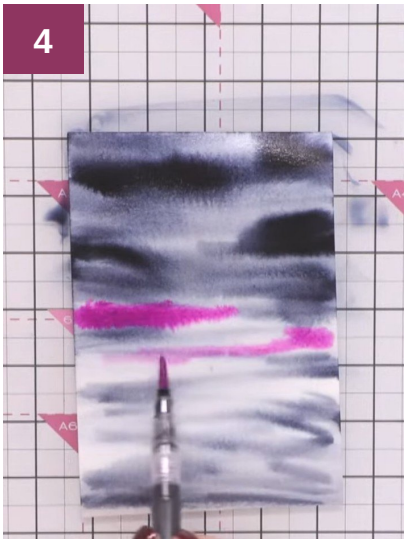
STAP 3 VAN 10

Squeeze the steely blue watercolour marker pen to release colour and drop it onto the wet paper, allowing it to flow and blend naturally with the existing colours.

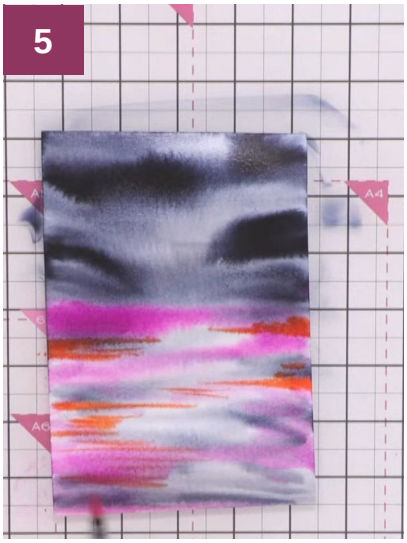
BEKIJK DEZE STAP - 42:45



STAP 4 VAN 10

Using a fuchsia pink watercolour brush pen, add colour to the middle section of your wet paper, creating horizontal strokes across the centre area.

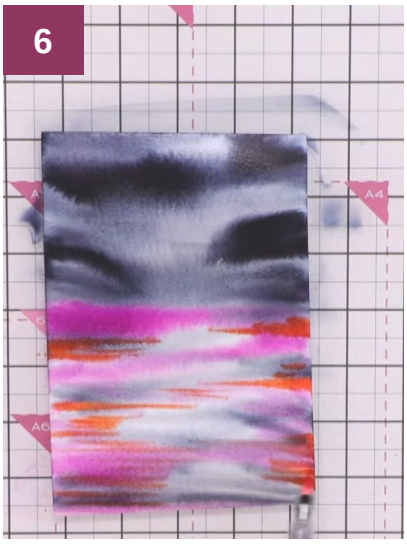
BEKIJK DEZE STAP - 43:15



STAP 5 VAN 10

Add orange or yellow horizontal strokes to the lower section of the sky to create an aurora effect, blending the colours into the pink and grey areas.

BEKIJK DEZE STAP - 43:30



STAP 6 VAN 10

Use a clean, wet brush to move the bright colours around and blend them together on the card, creating smooth transitions between the pink, orange, and purple tones.

BEKIJK DEZE STAP - 44:00

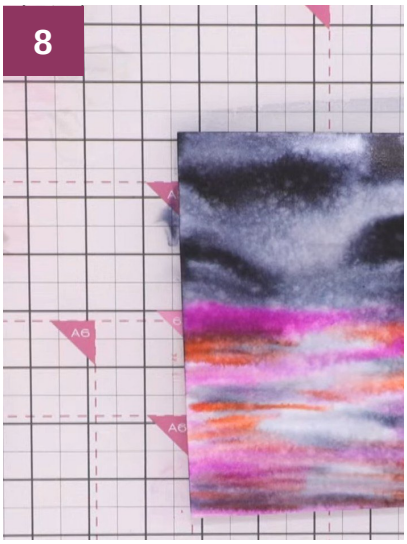
STAP 7 VAN 10

Before the paper dries completely, use your wet brush to create a moon shape by twisting it in a circular motion on the dark blue area at the top of your design.

BEKIJK DEZE STAP - 44:45

8

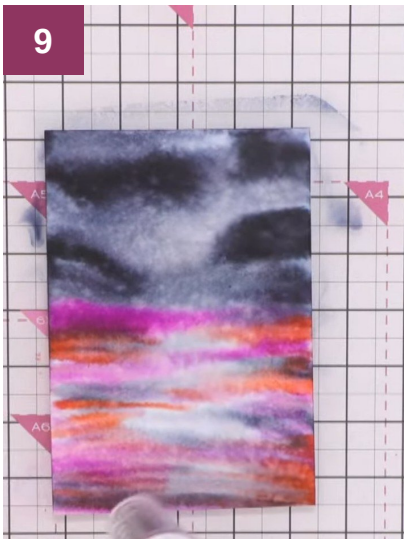


STAP 8 VAN 10

Use a tissue to dab the moon area at the top of your watercolour panel. This will lift out some of the colour and create a lighter, glowing effect for the moon.

BEKIJK DEZE STAP - 45:00

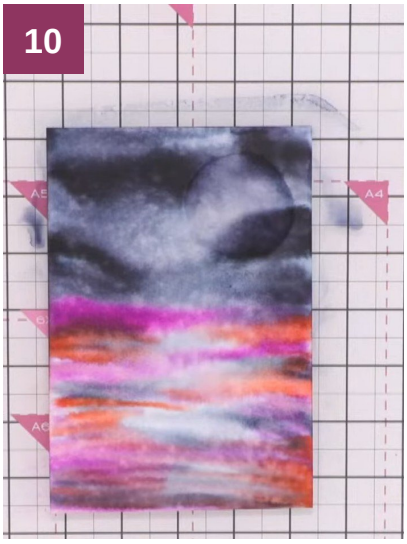
9



STAP 9 VAN 10

If needed, add more water to the moon area and dab with tissue to enhance its visibility and create a brighter, more defined glow against the night sky.

BEKIJK DEZE STAP - 45:30



STAP 10 VAN 10

Allow the watercolour background to dry completely. Once dry, you can stamp your focal image onto the finished aurora borealis sky.

TIPS UIT DE SHOW

- Don't be afraid to use colour boldly; the reactive inks are forgiving.
- Work on wet paper for the best blending and atmospheric effects.
- You can add a white gel pen halo around the moon after the background dries to enhance it further.
