

Danskaart met silhouet en spiegelbeeld

EEN PROJECT UIT ONZE LIVESHOW - HOBBYMAKER TV - 8 JUNI 2026

OVER DIT PROJECT

Create a striking silhouette card featuring a dancer in two poses - one upright and one reflected below - stamped in black ink on a circular gradient background. The design uses a beautiful blue-to-pink ombre effect with the reflection technique enhanced by a purple floor line and white gel pen highlights for a dynamic, modern look. This contemporary card combines stamping and ink blending techniques to produce an eye-catching piece perfect for celebrating friendship and movement.

STAP 4 VAN 9

Stamp the dancer silhouette clearly onto the white card panel using black ink. Position the stamp centrally over the blended circular background. Apply even pressure to ensure a crisp, complete impression.

STAP 5 VAN 9

Ink the bottom reflected dancer silhouette more lightly or unevenly to create a shadow effect. This gives depth and makes it appear as a reflection rather than a duplicate image.

STAP 6 VAN 9

Flip the stamp over and stamp the reflected dancer image below the first dancer, creating a mirror effect. Position it carefully to align with the circular gradient background.

TIPS UIT DE SHOW

- You can vary the ink saturation on the reflected image to create a natural shadow effect.
- The reflection stamps allow you to create complex effects without needing to recreate images manually.
- Adding a faux floor line with a contrasting ink colour helps define the space between the dancer and reflection.
