HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant Christmas card featuring a treble clef die cut embellished with clear embossing powder for a shiny, raised effect. The design is layered over black sentiment stamping, combining clear embossing with metallic accents to achieve a sophisticated, professional finish. This project uses heat embossing and die cutting techniques to produce a stunning musical-themed greeting card.

STAP 1 VAN 10

TIPS UIT DE SHOW

- The stamp and die are designed to work together, with the sentiment built to encroach around the design.
- Clear embossing powder on dark cardstock catches the light and looks really expensive.
- You can layer multiple die cuts behind each other with foam pads to create dimension.
