OVER DIT PROJECT

Create an elegant A2 card featuring a stunning snowflake border with layered die-cut elements in pink and silver tones. This clean and simple design combines sparkly snowflakes with coordinating patterned papers and a floating sentiment tag for a dimensional, festive look. The project uses die-cutting, layering and paper piecing techniques to achieve a sophisticated holiday card.

TIPS UIT DE SHOW

- You can use real string or twine threaded through the tag to make it swing on your card if desired.
- The dies have a quick-release carbon steel coating, making them easy to cut even with intricate details.
- You can create this card flat if you prefer, without the 3D snowflake layering.
