STAP 3 VAN 12

Spray the design with more water to help the colour bleed and create texture. Allow the water to run randomly across the paper to create natural watercolour effects.

STAP 4 VAN 12

Apply orange and pink water brush pen colours to different areas of the card panel. Leave some white space between the colours for contrast.

STAP 5 VAN 12

Whilst the card is still damp, use a brush to tap splats of pink colour onto the wet surface to create additional texture and depth.

BEKIJK DEZE STAP - 25:30

STAP 6 VAN 12

Dry the watercolour background completely using a heat gun. Hold the heat gun over the card, moving it across the surface to ensure even drying of the pink, orange and yellow watercolours.

Stamp and die-cut a second floral element using red cardstock. Colour the stamped image with orange and red water brush pens, adding depth and dimension to the flowers and leaves.

TIPS UIT DE SHOW

- Spray the design with water to help colours bleed and create a loose, textured look rather than trying to colour precisely.
- Leave white space on leaves and petals to create highlights and make the painting look more natural.
- Watercolour dries back two shades lighter, so apply colour slightly darker than your final desired shade.
