

Spotlight 3D Embossed Card with Rainbow Halo

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 28 MEI 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a striking card by embossing white cardstock with a 3D embossing folder, then use an aperture to create a rainbow halo effect around the embossed design. The result is a beautifully layered card with coloured highlights on the raised embossing, perfect for adding dimension and visual interest to your handmade greetings.

STAP VOOR STAP

STAP 1 VAN 10

Place your white cardstock into the Into the Forest 3D embossing folder and run it through your die-cutting machine to create the embossed design.

5

STAP 5 VAN 10

Using an orange ink pad, dab colour onto the aperture area to continue building the rainbow effect around the embossed frame.

6

STAP 6 VAN 10

Continue building the rainbow halo by applying yellow ink below the orange, then add green ink at the bottom. Blend the colours gradually to create a smooth transition across the hexagonal die-cut shape.

8

STAP 8 VAN 10

Mount the embossed panel onto a white card base using adhesive. Ensure the panel is centred and press down firmly to secure it in place.

9

STAP 9 VAN 10

Add a Quattro D embellishment to the side of the card for extra dimension and a gold halo effect.

10

STAP 10 VAN 10

Attach foam pads to the back of your embellishment. Position the embellishment on the card front to create a 3D lifted effect and complete your card.

TIPS UIT DE SHOW

- The rise on 3D embossing folders is high enough that you can paint directly into the raised and recessed areas with a fine brush.
- Take your time with the colouring process; keep layering and adding colour until you love the result.
- You can use embossing folders for backgrounds without adding any colour on top—the texture alone fills white space beautifully.
