EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 23 MEI 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful floral card using an innovative watercolour dipping technique with embossed die-cut flowers and leaves. The delicate white embossed petals are dipped into watercolour pools to create soft, painterly effects with natural colour gradients that settle into the embossed details. This quick and easy technique produces stunning results without requiring advanced painting skills, perfect for elegant handmade cards.

Allow the watercoloured die-cut pieces to dry completely before assembling. You can leave them to air dry naturally or use a heat tool to speed up the drying process.

Arrange the watercoloured die-cut flowers and leaves on your card base. Add a sentiment and position the gold drop shadow pieces behind the sentiment to create depth and dimension.

TIPS UIT DE SHOW

- Don't cover the whole card with colour; leave white space for light and shade effect.
- The watercolour will naturally settle into all the fine lines and recesses of the 3D embossed details.
- Batch make multiple pieces at once and store them to use whenever you need quick cards.
