

## Kaart met hibiscusversiering in aquarel

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 22 MEI 2023

### OVER DIT PROJECT

Create a beautiful greeting card featuring delicate watercolour-painted hibiscus flowers in soft blues and greens with golden centres. Using 3D embossed floral embellishments, you'll apply watercolour paints that naturally settle into the grooves to create stunning light and shade effects. The finished card showcases a 'Hello Sunshine' sentiment alongside your hand-painted botanical elements for a fresh, artistic look.

## STAP VOOR STAP

### STAP 1 VAN 8

**STAP 2 VAN 8**

Wet the entire white hibiscus embellishment with clean water using a watercolour brush, ensuring all petals and the centre are thoroughly dampened.

**STAP 3 VAN 8**

**Drop watercolour paint onto the wet embellishment and allow it to flow naturally into the grooves and recesses.** The paint will spread and settle into the textured areas of the hibiscus design.

**STAP 4 VAN 8**

Apply blue ink to the petals, leaving white spaces and a halo in the centre of the flower to create natural light and shade effects.

**STAP 5 VAN 8**

Allow the first layer of blue ink to dry completely on the hibiscus flower before proceeding to the next step.

**BEKIJK DEZE STAP - 52:00**

**STAP 6 VAN 8**

Add a second colour such as purple or fuchsia ink to deepen the shading on the petals and add dimension to the flower.

**BEKIJK DEZE STAP - 52:15**

**STAP 7 VAN 8**

If harsh lines form between the blue watercolour shades on the hibiscus petals, use a damp brush to pull water across the line and blend the colours together softly.

## STAP 8 VAN 8

Once the watercolour paint is completely dry, mount the painted hibiscus embellishment onto your card base using adhesive.

## TIPS UIT DE SHOW

- Don't colour the entire embellishment flat; leave areas of white to create natural light and shade that complements the 3D texture.
- The raised elements of the HD 3D embossing folder will guide the watercolour paint into the grooves, making it easier to achieve professional shading without extra effort.
