Pressed Flower Embossed Card with Die-Cut Elements

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 22 MEI 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant floral card using 3D HD embossing folders with integrated dies. This project features delicate white embossed flowers and foliage elements that can be left attached or die-cut to create dimensional layered designs. The technique combines embossing and die-cutting to produce beautiful raised floral motifs with intricate stencil details.

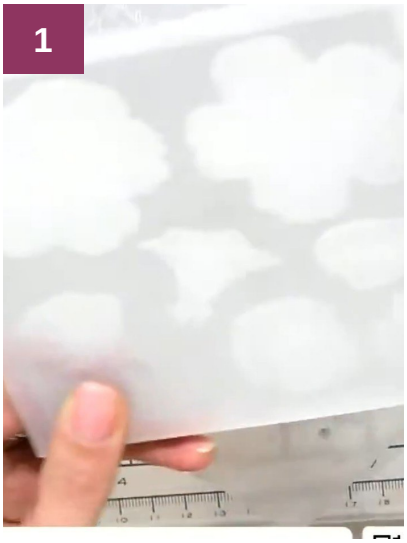
STAP VOOR STAP

1



STAP 1 VAN 7

Place your white card stock into the embossing folder with the die still taped in position. Ensure the card stock is properly aligned within the folder before running it through your die-cutting machine.

BEKIJK DEZE STAP - 13:45

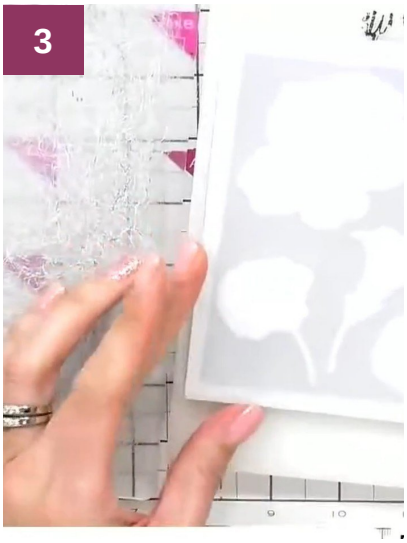
2

STAP 2 VAN 7

Run your embossed card through the die-cutting machine using the standard plate settings. The pink and white die-cutting machine will cut out the floral shapes from the embossed design.

BEKIJK DEZE STAP - 14:00

3



STAP 3 VAN 7

Remove the card from the embossing folder and observe the embossed detail. The die-cut elements will still be in place within the embossed design.

BEKIJK DEZE STAP - 14:15

STAP 4 VAN 7

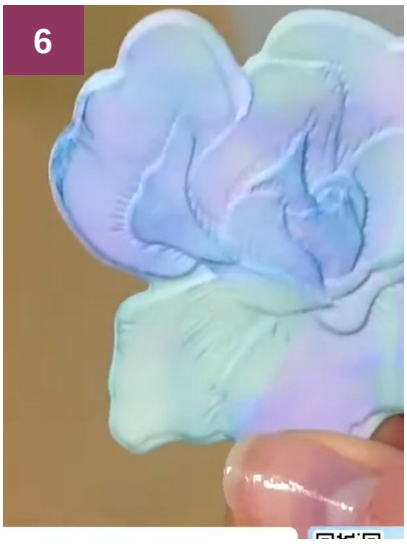
Gently pop out all the individual embossed flower and foliage pieces from the white card. Remove any small pieces carefully to avoid tearing the delicate die-cut shapes.

BEKIJK DEZE STAP - 14:30

STAP 5 VAN 7

Arrange the die-cut flower elements on your card base to create your desired composition. You can build corners, singles, tops, bottoms or wreaths using the embossed peony, hibiscus and rose pieces.

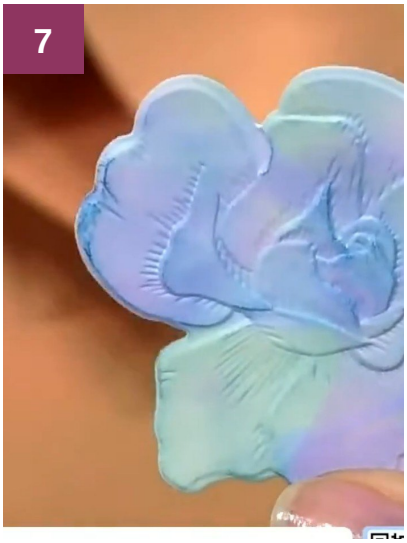
BEKIJK DEZE STAP - 14:45



STAP 6 VAN 7

Adhere the embossed flower elements to your card base using adhesive. Position the die-cut flowers as desired to create your design.

BEKIJK DEZE STAP - 15:00



STAP 7 VAN 7

Add any additional embellishments or sentiments to complete your card. Consider using die-cut elements, stamps, or other decorative touches to enhance your pressed flower design.

BEKIJK DEZE STAP - 15:15

TIPS UIT DE SHOW

• You can take the die out of the embossing folder by gently peeling back the low-tack tape, allowing you to use the folder as a traditional 3D embossing folder for backgrounds without cutting.
• The stencil created by the die-cut can be saved and used separately for spraying or inking techniques.
• Run multiple cards through at once and keep the embellishments in containers for quick card-making occasions.
