

Inked Embossing Folder Background with Metallic Accents

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 22 MEI 2023

OVER DIT PROJECT

Create a vibrant floral background card featuring purple and pink tones with delicate embossed flower details. This project uses the technique of inking embossing folders directly to create spontaneous, artistic patterns that can be enhanced with metallic accents. The finished piece provides a beautiful base for further embellishments or can stand alone as an elegant card front.

Once the embossed design is dry, lightly swipe metallic ink pads over the raised embossed areas to add gold or silver highlights. This will enhance the dimensional effect and add shimmer to your floral design.

TIPS UIT DE SHOW

- Don't worry if you use too much water; the embossing folder technique is forgiving and creates beautiful effects even with spontaneous application.
- You can spot off any unwanted ink lines with your finger for a cleaner look, or leave them for a more artistic effect depending on your preference.
