STAP 4 VAN 8

Die-cut your sentiment (such as 'Made with Love') in two colours—one in a metallic shade and one in white—to create a drop shadow effect. Layer the white die-cut slightly offset behind the metallic one to create dimension.

STAP 5 VAN 8

Position the purple metallic 'love' sentiment on the card front near the bottom edge. Offset the white 'love' sentiment slightly behind the metallic one and adhere both pieces together to create a layered effect.

STAP 6 VAN 8

Add two small leaves from your embellishment stash and tuck them under the purple sentiment piece for subtle interest.

STAP 7 VAN 8

Open the card and adhere your coordinating cardstock piece to the inside back panel. This will hide the glue marks showing through from the back of the acetate.

STAP 8 VAN 8

Allow the card to dry completely before handling. This ensures all adhesive and any ink or embellishments are fully set. Once dry, your acetate floating card with mount and sentiment is complete.

TIPS UIT DE SHOW

- When using acetate, you need a backing piece to hide the glue on the reverse side.
- Simple cards are often the best cards; you do not need to use every element available.
