

Embossed F with Chrysanthemum Flower Card

8 SEPTEMBER 2026

Create a striking card featuring a large embossed gold F initial paired with a beautifully layered chrysanthemum flower. The design combines elegant heat-embossed lettering with dimensional floral elements for a sophisticated, personalised greeting card.

TIPS FROM THE SHOW

- Heat your embossing gun until it is hot before applying it to the card to avoid warping the card stock.
- There is no right or wrong way to place the die cuts down, but ensure you use the correct side of the paper.
- Flowers are not perfectly symmetrical, so slight variations in petal placement and curling create a more natural appearance.
