

Layered Floral Stamped Card with Heat-Embossed Panels

A PROJECT FROM OUR LIVE SHOW - CREATE TOGETHER CLUB - 29 MARCH 2022

ABOUT THIS PROJECT

Create a striking card by heat-embossing a floral stamp in white onto multiple coloured cardstock pieces, then cutting them into strips and layering them to create a rainbow effect. The repeated pattern aligns perfectly to create a continuous design across the card front.

- Keep all your cardstock pieces exactly the same size so the stamped image aligns perfectly when layered.
- Use an anti-static bag to get a crisp, clean embossed image.
- Don't move your stamp between stamping each colour piece—this ensures the pattern repeats in exactly the same position.
