Watercolour Lamination Flower Card with Blended Ink

A PROJECT FROM OUR LIVE SHOW - HSN INSPIRATION - 3 NOVEMBER 2026

ABOUT THIS PROJECT

Create a stunning watercolour-effect card featuring a woman's face adorned with beautifully blended flowers in soft, artistic tones. Using the Light Up the Room lamination stamp set, you'll master the technique of inking different coloured sections, spraying with water, and stamping to achieve a delicate watercolour finish. This elegant design combines modern stamping with traditional watercolour aesthetics for a truly unique greeting card.

TIPS FROM THE SHOW

- Use watercolour cardstock with cotton content for best results, as it allows you to move colour around; cheaper cardstock absorbs moisture too quickly.
- Do not try to line up the lamination stamps perfectly—the sporadic, sketchy alignment is what creates the artistic effect.
- Heat dry between stamping layers to prevent black ink contamination with other colours.
