

Heat Embossed Brooch with Word Card

18 SEPTEMBER 2025

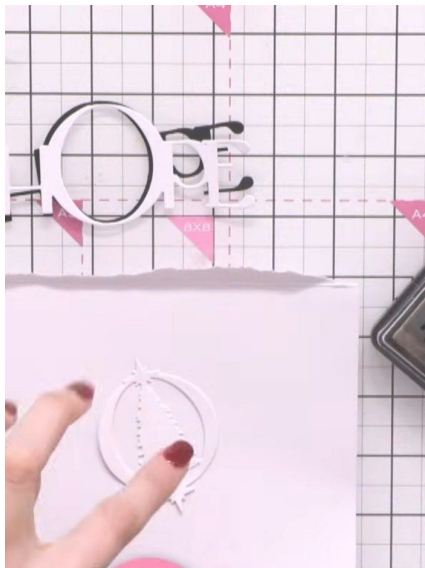

Create an elegant layered card featuring a heat-embossed decorative brooch positioned within a word die-cut. The brooch is embossed with glittering powder in a contrasting colour, then the word is layered with a drop shadow effect for added dimension and visual interest. This technique combines die-cutting, heat embossing and layering to produce a sophisticated handmade card.

From our live show **ONE DAY SPECIAL - Join Toni for her brand new launch - Broadcast 18th September 2025** (18 September 2025) - watch it from 56:45.

STEP 2

Sprinkle embossing powder over the stamped brooch, ensuring it is completely covered. Tap off any excess powder back into the pot.

Watch this step: 57:15 into the show

STEP 3

Heat set the embossing powder with a heat gun, holding it over the glittery green area until the powder melts and becomes glossy and smooth.

Watch this step: 58:30 into the show

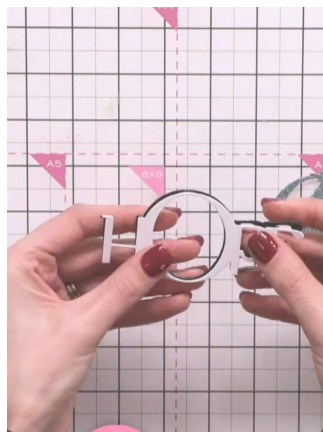

STEP 4

Die-cut the word 'HOPE' from both black and white cardstock using the word die from the Love, Hope & Joy die set.

Watch this step: 59:00 into the show

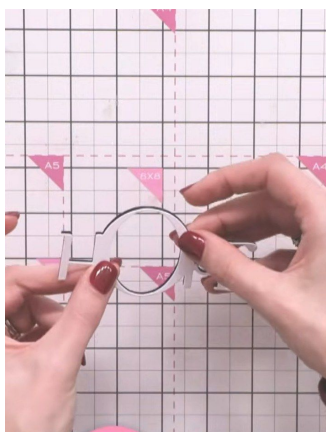

STEP 5

Layer the white 'HOPE' word die-cut on top of the black 'HOPE' word die-cut, offsetting it slightly to create a drop shadow effect.

Watch this step: 1:00:15 into the show

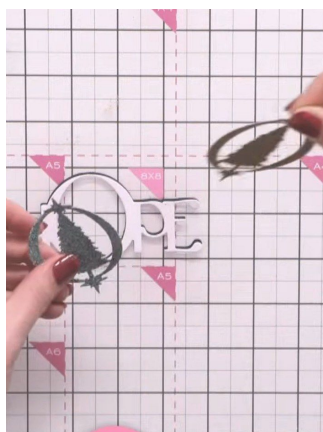

STEP 6

Adhere the embossed brooch centrally on top of the layered word card using adhesive. Position it over the 'HOPE' sentiment to create a focal point.

Watch this step: 1:00:30 into the show

STEP 7

For added dimension, carefully cut around the gold brooch design and layer it on top of the heat embossed version already on your card.

Watch this step: 1:01:00 into the show

TIPS FROM THE SHOW

- You can cut away the brooch design from the die-cut and layer it separately to create more dimension.
- The brooches fit seamlessly within the O's of all the word die-cuts and can be interchanged throughout the year.
