

Painted and Stencilled MDF Coaster with Vintage...

8 AUGUST 2025

ONE DAY
SPECIAL

Transform a plain MDF coaster into a vintage-style decorative piece by painting it with eco-friendly paints, layering stencilled designs, and distressing with finger waxes and white pigment. The result is an elegant, handmade gift with dimensional floral details and aged character.

From our live show **MDF Coaster 13 x 13 x 5cm - C9WHF2** (8 August 2025) - watch it from 28:15.

WHAT YOU WILL NEED

- HTCN - 5 X Aladine Izink Nature Bundle - SZEQ2T
- MDF Coaster 13 x 13 x 5cm

Place the MDF coaster on a protective surface and apply your first base coat of paint using a graduate brush, using cross-hatching strokes to ensure even coverage.

Watch this step: 28:30 into the show

Allow the base coat to dry completely, then position your classic rose layering stencil on the coaster.

Watch this step: 31:00 into the show

Using a pink ink pad and brush, tap the first stencil layer (layer one) lightly onto the coaster, building up colour gradually.

Watch this step: 35:00 into the show

Remove the first stencil and position the second stencil layer, tapping with the same pink ink to add more detail to the rose centre.

Watch this step: 36:30 into the show

Continue layering with stencils three, four and five, using darker pink tones and then green for the leaves, tapping gently to build dimension.

Watch this step: 38:00 into the show

Switch to a teal or purple ink pad for additional depth on the foliage areas, tapping lightly to avoid overwhelming the design.

Watch this step: 40:15 into the show

Apply gold finger wax to the edges and corners of the coaster by dipping your finger and tapping gently, blending as needed.

Watch this step: 44:30 into the show

Distress the design by dry brushing white pigment over the surface in one consistent direction, dragging upwards to create vintage wear lines.

Watch this step: 49:00 into the show

Use a silver pencil and ruler to lightly draw imitation wood grain lines across the coaster surface, pressing gently to avoid heavy marks.

Watch this step: 54:15 into the show

Once complete and dry, seal the finished coaster with a matte or satin varnish to protect the design and allow it to be used functionally.

Watch this step: 55:30 into the show

TIPS FROM THE SHOW

- When opening the paints for the first time, you may see a little oil come out first—this is normal due to the heavy oil content that allows the paints to work on multiple surfaces.
- Keep your brush lines consistent when distressing—either all going up, down, or left to right—to avoid creating an unintended cross-hatch pattern.
- The white pigment is blendable and will dry back lighter than it appears, so you can adjust the effect as you work.

PRODUCTS USED

Inspiration with out frustration - we have carefully curated all of the products used in this project to assist you in your creative journey. Click on the product images to find their availability from Stamps By Me.
