

Multi-Colour Stamped Tree Card with Sponge...

25 JULY 2025

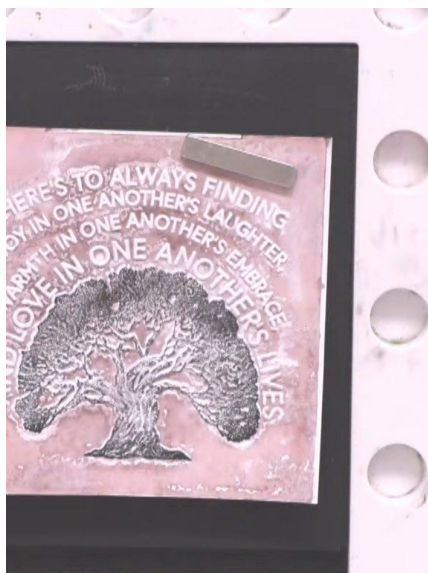

Create a stunning nature-inspired card featuring a detailed tree stamped in multiple colours. Using sponge daubers to apply different ink colours to various parts of the stamp, you'll build up a beautiful, multi-toned tree design on white cardstock with a kraft border. This technique allows you to achieve depth and dimension with a single stamp, creating an eye-catching focal point for your handmade card.

TIPS FROM THE SHOW

- Using sponge daubers allows you to ink different parts of the same stamp with different colours for a multi-coloured effect.

Stamp the tree image onto your white card, pressing firmly and evenly to transfer both the brown and green ink colours in one impression. Ensure the entire design is stamped clearly before lifting the stamp.

Watch this step: 1:10:00 into the show

Repeat stamping the tree design with the green ink across your white card panel, building up the multi-coloured effect. Use the sponge daubers to apply the ink to the stamp each time.

Watch this step: 1:10:15 into the show
