

Shamfered Frame Card Without Dies

9 JUNE 2025

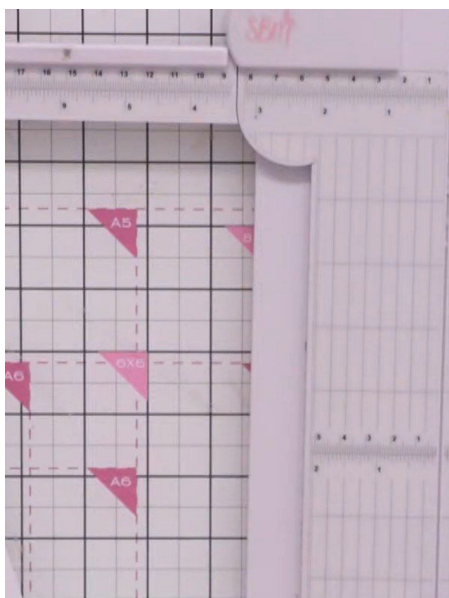

Create an elegant picture frame card featuring a beautiful floral teacup design in soft pinks and creams. This project uses a clever technique of layering coordinating paper strips to build a professional chamfered frame effect without any dies. The finished card has a vintage, shabby chic style with delicate embellishments including a miniature dress decoration.

From our live show **Create Together Club - 5 Days of Creativity - Broadcast Monday 9TH June 2025** (9 June 2025) - watch it from 25:00.

STEP 9

Adhere the completed frame to your card base using tape around the outer edges. Position the frame so the decorative floral border is at the bottom, ensuring the tape will be hidden beneath the frame.

TIPS FROM THE SHOW

- This is a clever hack if you don't have dies available or want to create a frame without cutting tools.
- Use low-tack tape initially so you can adjust the strips before committing to the final placement.
- Inking the edges of the frame strips gives a professional, finished appearance similar to a real picture frame.
