

Landscape Vellum Layered Card with Fussy-Cut...

6 JUNE 2025

Create an elegant landscape card featuring delicate layered vellum strips that add soft texture and depth. A decorative paper panel with floral corners provides a beautiful frame, while a fussy-cut cake embellishment becomes the stunning focal point. This design combines gentle vellum layering with dimensional paper crafting for a sophisticated finish in romantic pink and cream tones.

From our live show **Create Together Club - 5 Days of Creativity - Broadcast Friday 6THH June 2025** (6 June 2025) - watch it from 9:00.

WHAT YOU WILL NEED

- Create Together Club - Chapter 6 - 170325A

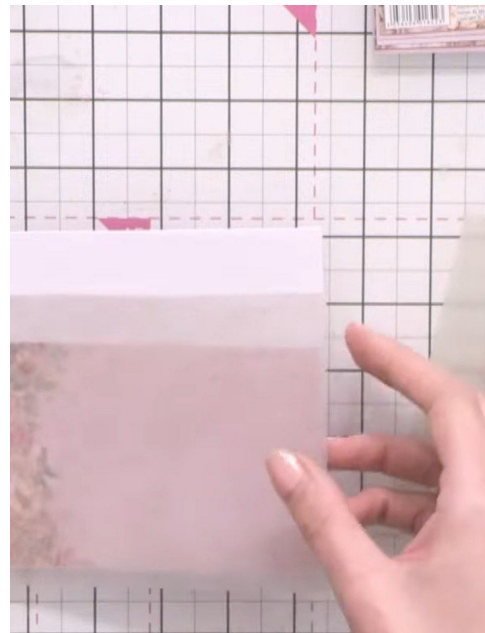

STEP 1

Cut a coloured paper offcut to fit across the bottom of your landscape card base. Position it and secure it with tape.

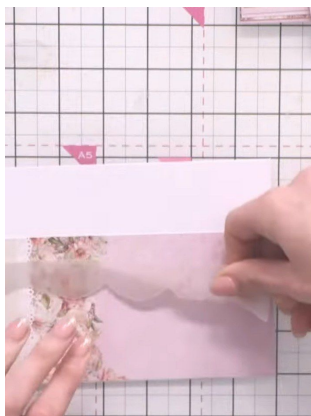

Watch this step: 10:00 into the show

STEP 2

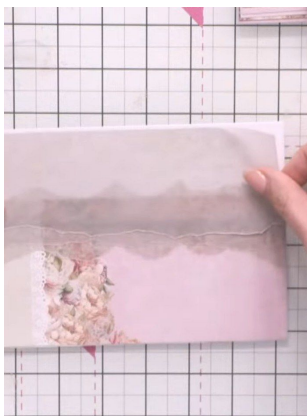

Select a light-coloured vellum sheet and trim it to size. Layer the vellum diagonally across the bottom section of the card base.

Watch this step: 12:30 into the show

STEP 3

Position a second strip of vellum above the first strip, overlapping slightly to create a layered texture effect. Smooth down to secure in place.

Watch this step: 13:00 into the show

STEP 4

Place a third vellum strip across the top of the card to complete the layered vellum detail.

Ensure the adhesive tape is positioned so it will be hidden by the subsequent layers.

Watch this step: 14:00 into the show

STEP 5

Cut a thin strip of decorative paper from your paper collection. Position it horizontally across the middle of the card to break up the vellum layers and add visual interest.

Watch this step: 15:00 into the show

STEP 6

Cut a panel from thicker paper and position it near the top of the card to conceal any visible tape from the vellum layers underneath.

Watch this step: 16:00 into the show

STEP 7

Apply foam pads to the back of the top vellum panel. Position the panel on the card base to create a raised, layered effect.

Watch this step: 17:00 into the show

STEP 8

Fussy-cut a cake design from your paper collection. Position it on the card front using foam pads to add dimension.

Watch this step: 27:00 into the show

STEP 9

Add a washi tape sentiment strip to the card, positioning it as desired on the design to complete your landscape vellum layered card.

Watch this step: 31:00 into the show

TIPS FROM THE SHOW

- Vellum is a great way to soften a card if it looks too harsh or heavy on the eye.
- Use offcuts from your paper collection to reduce waste and create interesting layered effects.
- You can use any sentiment you prefer—washi tape, stamps, or pre-made sentiments all work well.
