

Stencilled Layered Bird Card with Sparkle

14 APRIL 2025

Create a beautiful stencilled bird design using a six-layer stencil system with coordinating ink pads. The layering technique builds colour and dimension, finished with a sparkly gel pen for extra shine.

TIPS FROM THE SHOW

- Don't press too hard on the first stencil layer; use the same colour on the second layer but press harder to create natural shading.
- Any colour bleeding or tremors outside the stencil lines will be hidden once you apply the coordinating die-cut outline.
- Squeeze the sparkly gel pen gently as it comes out quickly; allow it to start drying before dragging it across the paper for best results.
