

Monochromatic Black and White Segmented Card

14 FEBRUARY 2025

Create a striking monochromatic card featuring a beautiful poppy design with colourful horizontal stripes running through it. This project uses stamping and paper piecing techniques to create a modern, segmented effect with bold colours against a clean white background. The finished card has a contemporary, artistic style perfect for any occasion.

From our live show **Create Together Club - 5 Days of Creativity - Broadcast Friday 14TH Feb 2025** (14 February 2025) - watch it from 24:00.

STEP 5

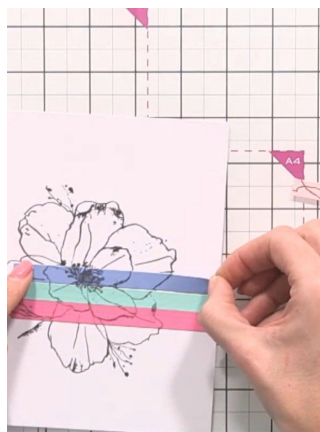

Position the pink strip horizontally across the centre of the flower design on your card base, ensuring the design aligns properly. The strip should sit slightly short of centre to accommodate the design placement.

STEP 6

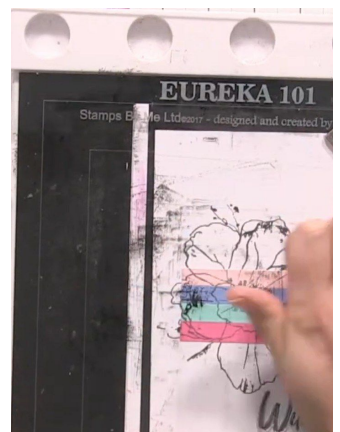

Adhere each coloured strip carefully across the flower image, matching the design across the segments. Position the mint green strip first, followed by the pink strip below it, ensuring the flower outline aligns properly.

STEP 7

Trim the assembled card to create clean edges using a paper trimmer or scissors. Remove any excess paper from the sides to ensure all layers are even and aligned.
