

Watercolour Witch Card with Lamination Stamps

8 AUGUST 2024

Create a spooky watercolour witch card using innovative two-part lamination stamps. The atmospheric design features a golden-silhouetted witch floating against a smoky purple and grey background, complete with flying bats and a haunted house scene. This project demonstrates the unique technique of building up layers with lamination stamps to achieve a beautiful watercolour effect.

TIPS FROM THE SHOW

- Make sure the ink at the back is completely dry before applying embossing powder to avoid a messy result.
- You don't have to use both stamp layers together; you can use them separately for different effects.
- If your stamp positioning isn't exactly right, the card will still look beautiful.
