

Partial Die-Cut Fish Card with Inlay Panel and...

6 MAY 2024

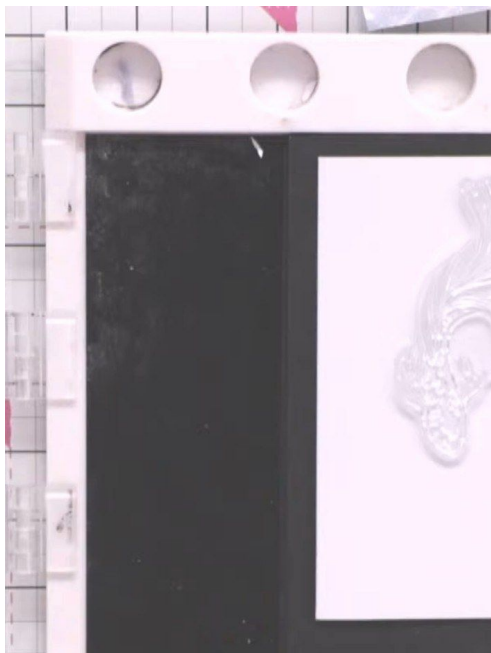

Create an elegant card featuring a beautifully embossed fish design with flowing fins in purple and grey tones, set against a pink card base. This sophisticated project uses a partial die-cut inlay technique, where the fish extends beyond its decorative panel, combined with heat embossing, bubble stamps, and sparkling gem accents for a dimensional finish. The design showcases advanced stamping and die-cutting skills to achieve a professional, eye-catching result.

From our live show **Create Together Club - Chapter 4 - Broadcast 6TH May 24** (6 May 2024) - watch it from 7:15.

WHAT YOU WILL NEED

See the show for everything used.

STEP 1

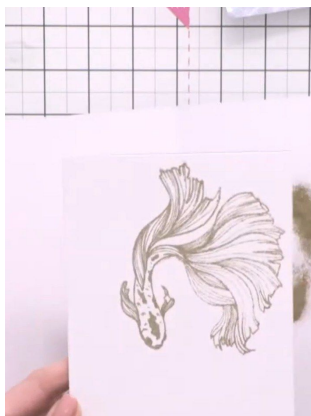

Heat emboss the fish stamp in gold onto the front of a 5x7 inch card blank. Position the stamped image centrally on the card front.
Watch this step: 8:00 into the show

STEP 2

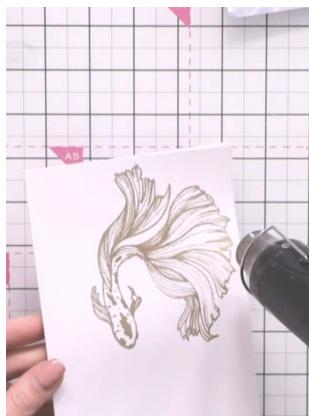

Ink the fish stamp with sticky ink pad, ensuring all detail is captured. Stamp the image twice onto white cardstock for full coverage.
Watch this step: 9:30 into the show

STEP 3

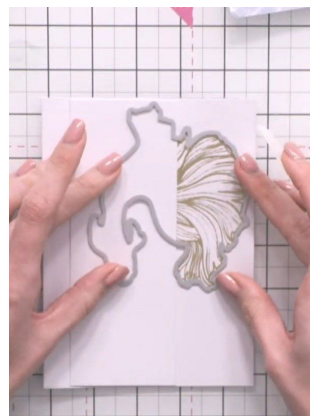

Apply gold embossing powder to the inked fish stamp. Heat set with a heat tool until the powder melts and becomes shiny.

Watch this step: 10:45 into the show

STEP 4

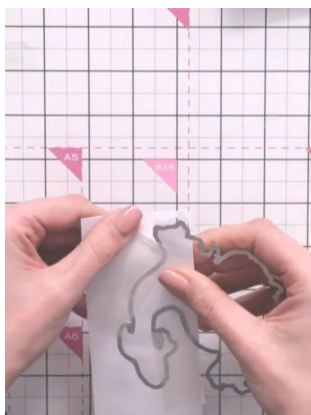

Position your decorative panel on the card base. Align the fish die on top so it sits half on the panel and half off, with the fish's head and body on the panel and the tail extending beyond it.

Watch this step: 13:00 into the show

STEP 5

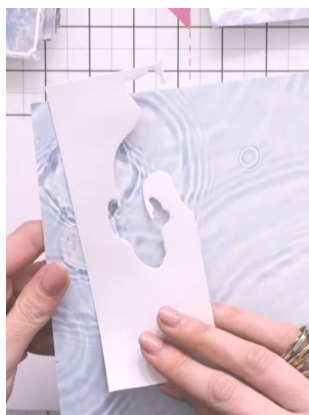

Secure the die and panel with low-tack tape, then run through your die-cutting machine carefully to avoid tearing.

Watch this step: 15:30 into the show

STEP 6

Remove the tape and carefully separate the die-cut pieces. Keep the panel with the partial fish design intact, discarding the outer cut-away pieces.

Watch this step: 18:00 into the show

STEP 7

Cut a thin strip of the water-effect patterned paper and adhere it down the left side of the white panel as a colour accent.

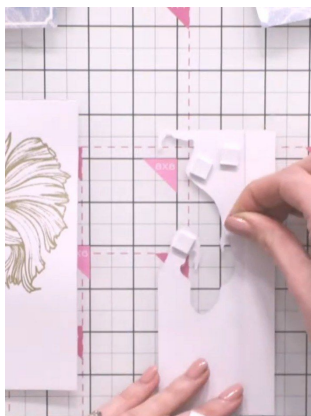

Watch this step: 19:30 into the show

Stamp the sentiment 'Tranquility' in teal ink on the side of the fish design.

Position the stamp to complement the fish image on your card panel.

Watch this step: 23:45 into the show

STEP 9

Apply small foam pads to the back of the partial fish die-cut, using smaller pieces in tight corners to create dimension. Position the foam pads carefully to ensure even adhesion.

Watch this step: 26:15 into the show

STEP 10

Add gold gem embellishments scattered amongst the stamped bubbles on the card for sparkle and definition.

Watch this step: 31:00 into the show

TIPS FROM THE SHOW

- Use low-tack tape when securing your die to avoid tearing delicate cardstock.
- If your die-cut is positioned too close to the edge, pull your panel down slightly on the card to avoid delicate areas.
- You can emboss a decorative panel with an embossing folder before assembling to reduce the amount of white showing.
