

Stencilled Glitter Paste Texture with Watercolour...

30 APRIL 2024

Create a beautifully textured card featuring soft watercolour washes in pink and green tones with dimensional glitter paste details. This project combines stencilling techniques with watercolour blending to achieve a delicate, artistic background with shimmering accents. The layered approach builds depth through texture and colour for an elegant handmade card. From our live show **Create and Craft TV - IMALA LAUNCH SHOW 2 - Join Carley Duff - Broadcast 30th April 24** (30 April 2024) - watch it from 28:45.

STEP 2

Use a spatula to apply glitter paste through the stencil opening onto your card. Control the amount of paste you use, applying it in a thin, even layer. The paste will add lovely sparkle and soft texture to your design.

Add a splash of water to your glass mat and use a brush to paint with the dye ink, creating a watercolour wash effect. Apply the wash to your stamped design, blending the colours together.

Use a blending tool or sponge to gently blend the watercolour washes together on the background. Work the colours into each other to create a soft, blended effect that complements the textured paste design.

TIPS FROM THE SHOW

- Glitter paste applied with a spatula gives you better control and prevents air pockets compared to other application methods.
