

Perfectly Paired Watercoloured Character Card

25 APRIL 2024

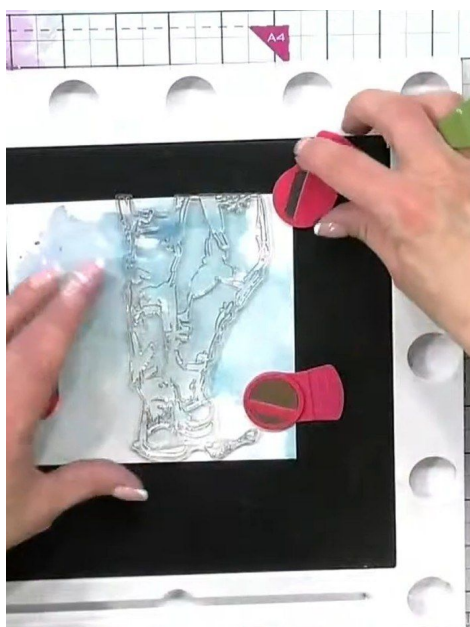

Create a fresh, contemporary card featuring a watercoloured character illustration on a bold black background. Using loose watercolour blending in blues and greens, this design showcases a casual figure in jeans and trainers with hand-lettered text. The simple yet striking composition demonstrates how one stamp can create a complete card with minimal effort. WHAT YOU WILL NEED

- Imala - A5 Stamp - Perfectly Paired - 080224H

STEP 1

Stamp one of the character variations from the Perfectly Paired stamp set onto your pre-made inky background using Versafine ink. Position the stamp carefully to place the character where desired on the background. **Watch this step:** 48:15 into the show

STEP 2

Position a sentiment stamp from the Perfectly Paired collection in the centre of your watercoloured panel. Ink the stamp with black ink and press firmly onto the panel to create a clear impression. **Watch this step:** 48:45 into the show

STEP 3

Prepare your watercolours in pink, green and blue.

Begin painting loosely over the creases and folds of the character's clothing, working on one side at a time to build up colour and depth.

STEP 4

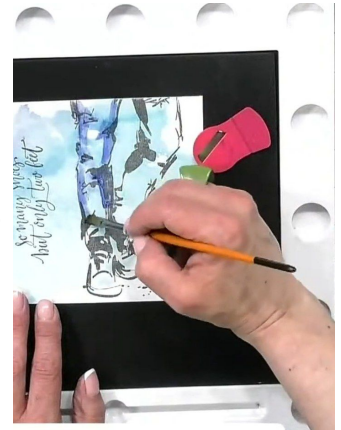

Using a damp brush, pull the watercolour across the stamped image to create light and shadow effects.

Build up depth gradually, working in layers without over-saturating the card.

Watch this step: 50:00 into the show

STEP 5

Build up colour on the watercoloured image by adding a slightly deeper tone to create additional depth and dimension. Layer the colours to achieve a more fluid and transparent effect, adding richness to the design.

Watch this step: 50:30 into the show

STEP 6

Once the watercolour is completely dry, mount your finished artwork onto a black card mat and then onto your card base to complete your character card.

Watch this step: 51:00 into the show

TIPS FROM THE SHOW

- You can watercolour on smooth 250 GSM card stock if you don't over-saturate it—just avoid layering too many times to prevent the card from buckling.
- Paint over all the black lines to create hidden depth that you wouldn't get otherwise.
