

Watercolour Ink Blending and Reverse Print Technique

A PROJECT FROM OUR LIVE SHOW - CREATE AND CRAFT TV - 3 APRIL 2024

ABOUT THIS PROJECT

Create a soft, blended watercolour effect by applying ink to a stencil, spraying with water, and pressing onto card to create a reverse image. This technique produces a beautiful, muted background with organic colour blending.

- The reverse print technique allows you to create two coordinating backgrounds from one stencil application.
- Don't waste the ink on the stencil—use it to create a second print.
