

Sweet Like Honey Stencilled Multicolour Background Card

A PROJECT FROM OUR LIVE SHOW - CREATE AND CRAFT TV - 11 MARCH 2024

ABOUT THIS PROJECT

A vibrant card using the honeycomb stencil with multicoloured ink blending. You apply yellow, pink, purple and teal inks through the stencil, then use a bleach technique to create dimension and texture. The result is a striking layered background perfect for stamping sentiments.

TIPS FROM THE SHOW

- You can create a wiry mesh effect by pulling ink in from the sides of the stencil.
- The bleach technique lightens the ink as it dries, creating subtle texture.
- You don't need an even blend—the more variation, the more interesting the background.
