

Simply Gorgeous Lady Card with Heat Embossed...

29 JUNE 2026

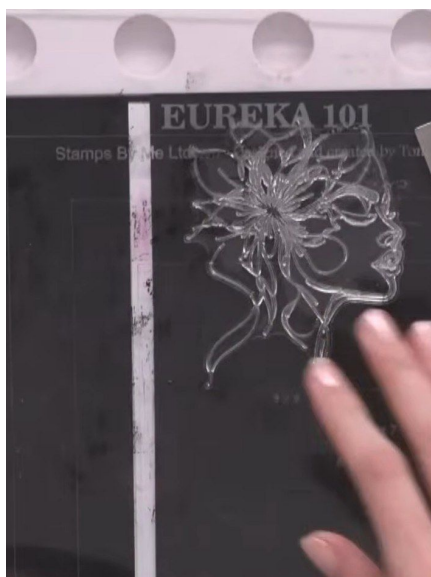

Create a striking card featuring a detailed lady's face heat embossed in gold on black cardstock. The intricate facial details including eyelashes, eyebrows and lips are beautifully rendered in metallic gold, creating a sophisticated and elegant design. This project uses heat embossing techniques to achieve a luxurious raised effect against the dramatic black background.

- Stamps By Me Lamination Stamp - Simply Gorgeous - 290725B

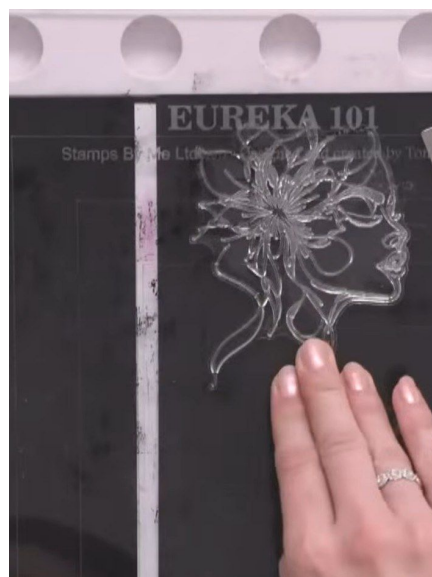

STEP 1

Cut a piece of black cardstock to size. Use an anti-static bag to treat the surface of the black cardstock, removing any static or moisture that could affect the heat embossing process.

STEP 2

Using a sticky embossing ink pad, stamp the Simply Gorgeous lady image in the top corner of your black card panel. Position the lady's head towards the upper edge, ensuring a clear impression for heat embossing.

Watch this step: 49:45 into the show

Apply gold embossing powder over the stamped image, ensuring all the detail is covered. Tap off any excess powder back into the pot.

Watch this step: 52:00 into the show

STEP 4

STEP 5

Heat set the gold embossing powder with a heat gun, working quickly and evenly across the stamped image to melt the powder without creating lumps or bumps on the paper.

Watch this step: 52:15 into the show

Once the embossing powder has cooled completely, gently brush away any excess anti-static powder from the card using a soft brush to reveal the clean heat embossed design.

Watch this step: 53:00 into the show

TIPS FROM THE SHOW

- Get your heat gun really hot before applying it to the card - less time on the card means fewer lumps and bumps.
- Use an anti-static bag before heat embossing to keep your work neat and free from unwanted specks.
